Standing still isn't an option — the world around you is growing whether you are or not. The right connection, at the right moment, changes everything. If you are ready to scale, integrate AI, operate at a higher efficiency and generate better results. **Let's get you connected. There are no coincidences.**

WHAT I BRING

- **AI integration** implemented across workflows, systems, change management and growth execution.
- **Whole systems, built end to end:** Votcen, a nonpartisan voting assistant covering all 254 Texas counties and 1,000+ candidates on iOS and Android, plus an address-to-ballot tool for Fort Bend's 64 ballot styles.
- **Civic production since 2016** with the Fort Bend County Democratic Party — materials in the county's 2018 flip; the slate cards and yearbooks, co-created with Cynthia Ginyard; this year's Voter Guide in print and digital; the Texas Democratic Women Fort Bend push card for the last four cycles.
- **Commerce systems:** VoterBiz's candidate-first order store with server-side pricing, plus apparel, promo and sign stores.

CORE SKILLS

AI Integration BPO Management
Creative Direction Brand Strategy
Civic Technology Political Strategy
